As a **Registered User**, I **need** to be able to see the machine learning predictions of specific soccer matches **so that** I can make more intelligent bets

As an **Unregistered User**, I **need** to be able to see some basic soccer data **so that** I can keep track of my favorite team's performances, past and present

User Story
As a Registered User , I need to be able to see how well machine learning predictions perform against average betting odds for soccer matches in the past so that I can understand the benefit of following the suggested bets.
As a Registered User , I need to select or input a specific game that I would like to know the Machine Learning prediction for so that I know how to bet for that specific match.
As an Unregistered User , I need to be able to navigate to the "stats" page to be able to view league tables for past and present seasons so that I can learn more about the history of the various soccer leagues around the world.
As an Unregistered User , I need to search for a specific team and see a vizualisation of their past and present statistics so that I can know their current ranking/league position and better understand their perfomance.
